

BARTOS

Your Partner from Design to Delivery

ACOUSTIC PARTNERS

Armstrong World Industries is a leading manufacturer of innovative ceiling and wall systems, emphasizing sustainability, design excellence and community investment.

The original acoustical trak solution with over 50 traditional and PVC-free wall & ceiling profiles.

Inventors of the first high-volume, low-speed (HVLS fan), MacroAir's products are unparalleled in energy efficiency and airflow.

Milcor's extensive line of access solutions includes interior access doors, roof access hatches, floor and sidewalk doors, and heat and smoke vents.

With over 40 years' experience in sound control engineering and installation, Noise Barriers develops and manufactures unique designs to meet your specific site or project requirements.

Pittcon's team has expertise in extrusions, formed sheet metal, laminating processes, and metal finishes.

Unika Vaev provides customers with highly designed and custom acoustic solutions and rugs for your space.
